Welcome to the 2020 Freckled Frog Catalogue!

Freckled Frog is the ideal wooden range with an ecological focus for nurseries, kindergartens and early years settings.

The Freckled Frog range is designed to consist of open-ended gender neutral toys promoting inclusiveness and cultural diversity which ensures the end result has everyone smiling.

The wooden pieces are chunky and of the highest quality making them ideal for little learners. Not only do the products cover role play but also introduce curriculum themes such as Maths, Literacy and Science.

There is also the chance for more open ended learning with chalk surfaces – see the Fun with Chalk Wooden Cubes on page 8.

The Freckled Frog range includes products for ages as young as 12 months +, so there really is something for every stage of early years learning.

Sustainability and ecological responsibility are very important at Educational Advantage which is why we are delighted that Freckled Frog uses FSC wood in its products.

We indicate where this is used by the FSC logo on the catalogue pages and we hope that you are excited as we are.
